We'll provide the maximum cropping space for our attendees. We realize that it is important to have room to work on your projects. We highly recommend that you think carefully about what you will realistically accomplish during the crops and only bring those supplies with you. Some croppers work on page kits or finish up projects from classes at the crop to minimize the supplies they need to bring. You may bring your rolling tote to the crop. However, handcarts and wagons are not permitted. Be sure to mark your supplies clearly with your name. After all, you'd be surprised how many scrappers have the same tools as you!
